The Honorable James Inhofe
Ranking Member, Armed Services Committee
United States Senate
Washington, DC 20510

The Honorable Adam Smith
Chair, Armed Services Committee
U.S. House of Representatives
Washington, DC 20515

The Honorable Mike Rogers
Ranking Member, Armed Services Committee
U.S. House of Representatives
Washington, DC 20515

Dear Chairmen Reed and Smith and Ranking Members Inhofe and Rogers:

The Military Coalition (TMC), a consortium of organizations representing 5.5 million service members, veterans, their families, and survivors, urges you to support H.R. 3047, the Military Moms Matter Act and H.R. 3122/S. 1571, the Servicemember Parental Leave Equity Act.

Support for military families is critical to retaining talent across our uniformed services. Female servicemembers are departing at an alarming rate, and modern talent management initiatives that foster a military family climate are required to retain these highly trained leaders. H.R. 3047 and H.R.3122/S. 1571 provide servicemembers and spouses with enhanced opportunities to welcome children into their families through birth, adoption, or foster placement.

The Military Moms Matter Act contributes to a more inclusive force and demonstrates a service-level commitment to valuing the contributions of female servicemembers, by providing increased leave for primary and secondary caregivers and ensuring the medical needs of new moms who serve are met. The Servicemember Parental Leave Equity Act brings parental leave offered to servicemembers in line with federal benefits and those options provided by many private, large employers.

Both pieces of legislation increase flexibility and support to military families who choose to become parents and enhance physical, mental, and psychological health and well-being during a stressful period. Providing parity in benefits with the civilian federal workforce is critical for military recruitment, readiness, and retention.

Currently, the Navy and Marine Corps offer just two weeks of leave for secondary caregivers, which does not provide flexibility in the event of a medical complication. The Servicemember Parental Leave Equity Act authorizes additional leave options in case of miscarriage, stillbirth, or infant death. Moreover, these proposed bills modernize the military’s parental leave policies,
improving the health of parents and their children, and would create a healthier, more welcoming environment for parents and support retention of our valuable female servicemembers.

We thank you for your continued support of our uniformed services, and hope you agree that the men and women in our nation’s uniformed services must be afforded the same benefits provided to federal and civilian employees.

Sincerely,

Jack Du Teil
President,
The Military Coalition
